### **GARBAGE PICK-UP MODIFICATIONS**

- What:** Through the duration of the construction process, the location of your garbage drop-off may require some modifications.
- Where:** While construction is taking place on the north side of the street (July – September, approx), residents/businesses located on the north side should carry their garbage cans through the portion of the road that is under construction to the edge of the pavement, in line with the orange construction barrels. Residents/businesses located on the south side of the street may place their garbage cans in their existing location – on the sidewalk or in a location that is a safe distance from the new travel lane.
- When:** Beginning Tuesday, August 4, 2009. The route along 3900 South will be picked up promptly at 7 a.m. **The sanitation truck will make frequent stops along 3900 South during garbage pick-up.** Due to the reduced lane width, those traveling along 3900 South during this time (Tuesdays at 7 a.m.) may want to consider an alternate route.
